

UNMATCHED VERSATILITY

SHARKBITE® REMODEL PRODUCT SOLUTIONS

Remodeling is a trade that requires a multitude of different skills. Each job can be different and present its own set of challenges, making it important to have solutions that provide the versatility for working in a variety of situations, especially in tight, or confined spaces.

SharkBite® engineers plumbing solutions that help remodelers work more efficiently, minimizing the amount of time their customer is inconvenienced by work commotion or a lack of running water. Our products can be installed in wet lines, reducing lost time on the job, and have the versatility to transition from multiple types of pipe using a single fitting. No special tools are required and no harmful fumes from adhesives or flames from soldering, enabling pipes to be joined in tight, or confined spaces with dependable, watertight connections. One manufacturer with a complete set of solutions designed for getting the job done.

KITCHEN

With the kitchen being the heart of the home, beauty and practicality are vital. SharkBite supply stop valves come with a sleek chrome finish, adding the perfect finishing touch to any speciality sink. Complete with a quick shut-off valve, the supply stop valve will be the essential addition to any remodel. Add in a Cash Acme® HG145 thermostatic mixing valve (TMV) to prevent any burns or accidental scalding.

For a clean and simple ice maker installation, use the SharkBite icemaker outlet box and installation kit. They come with everything you need, no additional tools needed, providing easy shut-off and access.

BATH

A newly designed bathroom needs to function as beautifully as it looks. SharkBite supply stop valves control water flow to faucets and toilets, allowing for maintenance and repair without having to turn off the water supply. For a simpler solution, SharkBite installation kits come with everything needed to install either a toilet or faucet, no additional tools needed. The included PEX pipe can be cut to the exact length needed for a clean, tangle-free look.

Achieve the ideal hot shower or bath by using a Cash Acme HG110-D thermostatic mixing valve (TMV). The actuated mixing valve mixes hot water with cold to deliver water at a controlled temperature, coming preset to 120° F.

LAUNDRY

Laundry rooms have come into their own in the remodeling industry, creating a convenient and functional clean-up command center. However, washing machine mishaps are among the leading causes of home floods. The installation of a SharkBite washing machine outlet box provides quick water supply access and shut-off, keeping the home safe and practical.

Upgrade the utility sink with SharkBite supply stop valves; the chrome finish will blend seamlessly into any sink design. The valves are also corrosion resistant to improve longevity.
