**SharkBite® Flexible Braided Stainless Steel Water Heater Supply Connectors**

**DESCRIPTION**

The SharkBite® Water Heater Connectors are used in residential and commercial applications to connect the hot and cold supply lines to the water heater. The connectors are EPDM knitted with braided stainless steel. The connectors are available in 12", 15", 18" and 24" lengths. The connections on the connectors are 3/4" FIP X 3/4" SharkBite. The SharkBite connection allows the installer to connect to copper, PEX, CPVC and PE-RT pipe eliminating the need for an additional transition fitting.

**FEATURES AND BENEFITS**

**SharkBite Connection:**
- Eliminates the need for additional transition fittings,
- Connects to OD controlled copper, PEX, CPVC, and PE-RT pipe.

**Ease of use:**
- No soldering or glue.

**Available in 12", 15", 18", 24" lengths:**
- No cutting pipe.

**Design certified and agency listed:**
- Inspector friendly, peace of mind.

**SPECIFICATION**

The SharkBite Water Heater Connectors shall be used with residential and commercial water heaters. The SharkBite Connection shall be connected to copper (ASTM B88), PEX (ASTM F876), CPVC (ASTM D2846) and PE-RT (ASTM F 2769). The SharkBite Water Heater Connectors shall be used with water in accessible locations only.

**Typical Installation**

(Please consult with local plumbing codes concerning specific water heater piping requirements.)
SharkBite® Flexible Braided Stainless Steel Water Heater Supply Connectors

Specification Data

Performance:
Maximum pressure ................. 200 psi
Maximum temperature .......... 200°F (93°C)
Service ................................ Potable water

Materials:
3/4” FIP Nut ............................. DZR Lead Free Brass
3/4” FIP Washer ......................... EPDM
SharkBite Connector ................. DZR Lead Free Brass
Hose .................................. EPDM Knitted with Stainless steel
