

SharkBite®

PEX Press Corrugated Water Heater Connectors

SharkBite® PEX Press Water Heater Connectors allows users to connect a water heater to water source with ease. Features corrugated stainless steel for extra strength and higher pressure ratings. Flexible design for simplified installation. Corrosion resistant with nickel-plated brass nuts, and rubber sealing washers.

Applications

SharkBite PEX Press Corrugated Water Connectors facilitate the connection between water heaters and water supply lines in residential and commercial potable water systems. These connectors are rated for regular inspections and maintenance and must be installed in accessible locations to ensure system reliability.

Specifications Data

Materials	
Tube	304 Stainless Steel
